Summary

I am a devoted software engineer with over three years of expertise and experience in building innovative solutions in banking and paper production companies. I am skilled at developing and maintaining numerous software systems, and I have hands-on experience working on various projects as a Full-stack Developer, Back-end Developer, and Front-end Developer.

I can adapt to developing software systems utilizing various technology stacks, including PHP Laravel, Dotnet C#, Node.js, and React.js. I am constantly motivated by a desire to learn and progress, and I am dedicated to improving my skills and providing high-quality software solutions.
